CONCRETE WARRIOR SUPPLY · VPC FIBERGLASS

MHA TERO EXPO 2026

Three days in New Town with the TERO office, the tribe's construction department and the contractors working on Fort Berthold. Call TERO first, then use the expo to meet the people building the Four Bears water plant.

19 to 21 Oct 2026 4 Bears Casino & Lodge Event Center, New Town ND Prepared by Doble AI

Thu 8 / Fri 9 Call the TERO office before anything else	\$750 Per registrant; 5th free with 4	18 × \$500 10x10 booths, first come; bring table and chairs	28 Oct Every follow-up sent
---	---	---	---------------------------------------

01 · THE EVENT

WHAT IT IS

When and where	Mon to Wed, 19 to 21 Oct 2026. 4 Bears Casino & Lodge Event Center, 202 Frontage Rd, New Town ND. Registration 7:00 to 8:30 AM daily; sessions start 9:00. Room block available.
Cost	\$750 per registrant (5th free with 4). 10x10 booth \$500 (18 booths, first come; bring table and chairs). Banners \$500 or \$750. Brochure ads \$150 to \$500.
Register	Email the form to TeroCommission@gmail.com. Pay by check to MHA Tero Commission, PO Box 488, New Town, or by card through TERO at 701-627-3634. No deadline printed.
Agenda	Only two items posted: "Update on TERO Regulations" and "TERO 101 certification available to all TERO licensed companies." No speakers, sessions, exhibitors or sponsors posted.

Host and contacts	MHA TERO Commission. Questions and booths 701-421-8735. Banners 701-421-2786. Sponsorships 701-898-1492. TERO is closed Mon 12 Oct.
Not found	Past expos, news coverage, exhibitor list, whether a booth includes registration.

02 · KNOW BEFORE YOU GO

WHO IS ATTENDING

No exhibitor or speaker list is public. Only the host is confirmed. Entries that matter to both companies come first.

WHO	STATUS AND EVIDENCE	MATTERS TO	PUBLIC CONTACT
TERO Office: Frank Sillitti (Exec. Dir.), Dewey Hosie (Deputy), Desiree Conklin (licensing)	CONFIRMED host	Both	Main 701-627-3634. Sillitti 701-627-6275 CORRECTED . Hosie 701-627-6271. Conklin 701-627-6268.
Fort Berthold Rural Water (FBRW): Joseph Silveria, Public Works Administrator	LIKELY tribal utility, new Four Bears plant	Both	701-627-8181 (FBRW main 701-627-8185)
Dark Horse General Contracting	LIKELY built the FBRW shop (opened 31 Jul 2026); bid the FBRW intake (Jan 2026). Native-, minority- and veteran-owned, Brooklyn Park MN CONFIRMED	Both	Brian Goudge, 701-501-6591 (TERO 26-8495, expires 29 Oct 2026)
Storms Construction	LIKELY apparent low bidder, \$3.07M, scattered-site sanitation (8 Apr 2026)	Both	Mandan ND, 701-663-5565 (TERO 27-8883)
MHA Construction Management: Forest Mandan, Preston Meanus	LIKELY tribal department	Both	Office 701-627-4529. Mandan (Construction Engineer) 701-421-7272. Meanus (Building Official) 701-421-2382

WHO	STATUS AND EVIDENCE	MATTERS TO	PUBLIC CONTACT
Rolac (EMHC housing, \$10.1M); Consolidated (Parshall clinic CM); 1st AAA (New Town; 26-231 pending)	LIKELY active tribal contracts	CWS	Rolac: Jason Sanders, 701-839-6525. 1st AAA: Edurado Castaneda, 970-623-4355. Both UNVERIFIED
Fort Berthold Housing Authority	LIKELY posts concrete bids (two on 15 Sep 2026, White Shield; closed 24 Sep)	CWS	Main 701-627-4731. Nicole Nadeau (exec. assistant); Amy Kogel (contract officer)
Bartlett & West	LIKELY FBRW's engineer since the early 2000s. TERO license 27-8759, to Mar 2027 CONFIRMED	VPC	Jared Huibregtse, 701-221-8402 (named on the Four Bears request)

03 · COMPETITORS

WHO ELSE IS SELLING

Concrete Warrior Supply

FIRM	SELLS	NOTES	AT EXPO?
Strata (Knife River) , New Town	Ready-mix, aggregate	Only other New Town plant. Apparent low bidder on NDDOT Job 23672 (ND 23 from 95th Ave NW to east of Four Bears Village: curb and gutter, sidewalks, lighting, signing), \$1.21M, opened 6 Feb 2026 CONFIRMED . Holds TERO Prime General license 27-9089 (to Apr 2027); services include material supplier.	Likely
Knife River / Strata , Watford City (42 mi)	Ready-mix	Closer than Killdeer or Tioga; serves the south side of the lake	Likely
Dickinson Ready Mix , Killdeer (53 mi)	Concrete products	On the Approved Oilfield Vendor list (27-9162, to Jun 2027; current list dated 3 Sep 2026). CWS is not. CONFIRMED	Likely

FIRM	SELLS	NOTES	AT EXPO?
Ruach Resources , Tioga (56 mi)	Ready-mix, aggregates; pours year-round CONFIRMED	Not on any current TERO list; the 25-5798 license appears to have lapsed CORRECTED	Likely
Sundre Sand & Gravel (Minot)	Crushed stone, sand, topsoil , crushed concrete	TERO-licensed (27-8926, to Apr 2027). A topsoil rival CORRECTED	Possible
Yellowstone Valley Concrete & Construction (Sidney MT)	Concrete, electrical	Approved Oilfield Vendor (26-8553), expires 29 Oct 2026 CONFIRMED . Sidney ready-mix suppliers include Sidney Red-E-Mix.	Possible
Baranko Bros. (Dickinson)	Earthwork, heavy highway, hauling	TERO-licensed (27-9031). Its TERO license lists earthwork and environmental services, not gravel or concrete sales: more likely a buyer	Possible
Indian-owned firms	Aggregates, topsoil	Triple C Oilfield Services (Class 5 and 13, sand, rip rap, clay, topsoil) and TEK Energy Services (Class 13 modified, sand, rip rap) hold Level 1 "Aggregates Supply - Pit" (list of 6 Oct 2026) CORRECTED . White Horse Construction is Level 1 for electrical, facilities construction, reclamation and erosion control, not aggregates. Hidatco Construction is certified Tier 1. Also partner candidates.	Likely

Topsoil rivals: Triple C (Level 1) and Sundre. **Level 1 has no concrete or ready-mix category.**

License numbers are from the TERO lists dated 3 Sep 2026 unless noted. Source:

mhatero.com/contractor-lists.

VPC Fiberglass

FIRM	SELLS	NOTES	AT EXPO?
Shelter Works (St. Louis MO); Warminster Fiberglass (Jacksonville TX)	FRP shelters for lift and pump stations, chemical rooms	Same line as VPC's shelters. Neither site names valve enclosures.	Unlikely
Tracom (Jasper GA)	Flumes, metering manholes, FRP wet wells	Manholes and flumes	Unlikely
LF Manufacturing (Giddings TX; plant in Laurel MT; owned by NOV)	FRP wet wells and basins	Lift stations. Delivers with its own drivers. Does not list flumes or metering manholes CORRECTED	Unlikely
FRP Mocoat (Asquith SK and Calgary)	FRP valve enclosures	Close by; serves SK, AB and MB	Unlikely
Skaw ND Precast (Minot)	Precast septic and holding tanks, manhole risers, lift stations	Concrete alternative, local to the septic work. (Gillespie Precast removed: it serves the Mid-Atlantic) CORRECTED	Possible
Baynum Amusement Solutions (KY)	Restores and installs aquatic play units	Not a maker, and not on a current TERO list CORRECTED . Possible installer partner.	Unlikely

Sources: firm websites; TERO lists. No regional reps found publicly.

04 · PROSPECTS

WHERE THE WORK IS

Both companies

- **New Four Bears water plant (FBRW)**. About \$30M plant (\$36M total with raw-water line and intake); state cost-share request for 2027 to 2029 is \$27M **CONFIRMED**. South side of ND 23, 2.5 miles west of the old plant, at the new FBRW office/shop, near the CWS yard. Still proposed; pre-construction cost share approved 2024 and 2025. Tribal resolution 26-179 (8 Jul 2026) directs counsel to file condemnation for the raw-water line easement **CORRECTED**. Engineer Bartlett & West **CONFIRMED** (they filed the state request). *Fit*: CWS structural concrete and bedding; VPC shelters, flumes, manholes.

- **Scattered-site sanitation.** Owner Three Affiliated Tribes (IHS role **UNVERIFIED**); Storms, \$3.07M apparent low bid, opened 8 Apr 2026 (Hanson's \$3.10M, Meyer \$6.71M). *Fit:* VPC basins and lift stations; CWS gravel.
- **New Town water plant reverse-osmosis upgrade.** \$33.4M, 2028, upgrade to the existing plant for manganese (**CORRECTED**). Engineer **LIKELY** AE2S (the state list names none). *Fit:* concrete; shelters and flumes.
- **New Town sewer rehabilitation.** \$9.88M (2027) plus \$10.95M (2028). Engineer AE2S **CONFIRMED** (2026 clean-water loan list). *Fit:* manholes and metering manholes; bedding.
- **Watford City 2027 street and utility.** \$3.05M (amended 2026 drinking-water list) **CONFIRMED**; engineer not public; off-reservation.

CWS only

- EMHC staff quarters housing (Rolac), \$10.1M, approved 23 Sep 2026 **CONFIRMED**.
- Parshall clinic (Consolidated): contract up to \$12M within a \$14M budget **CORRECTED**.
- 1st AAA and McKenzie Electric West housing (pending legal review) **UNVERIFIED**.
- FBHA concrete bids.
- Sand Hill water tower, owned by the **City of New Town** **CORRECTED**, state share \$3.68M. AE2S (Deon Stockert, 701-221-0530) **CONFIRMED**; completion due 1 Oct 2027. Bidders reported as Gerard Tank & Steel and Phoenix Fabricators **UNVERIFIED**. Ask about the foundation.

VPC only

- Bruce A. Fox plant, Mandaree (opened 19 Aug 2026, Bartlett & West) **CONFIRMED**: a reference, not a lead.
- Water play: community centers. Chairman Fox (TERO conference, 5 Dec 2025): new community centers are "planned and being developed in New Town, Four Bears and Mandaree" **CONFIRMED**. The Parshall community center opened 2 Oct 2026. Ackerman-Estvold designed the 4Bears Waterpark and the Malcolm Wolf Community Park indoor splash pad (Ryan Anderson; firm main line 701-837-8737).

Right room for VPC? Partly. The main path is a spec review with Bartlett & West and AE2S. Use the expo for TERO supplier status and FBRW.

HOW TO GET THE MOST OUT OF IT

Decision for Corey: attend only, or attend with a booth? Registration and the booth are separate. You can register and work the room without a booth.

	ATTEND ONLY	ATTEND WITH A BOOTH
Cost	\$750 per person; the 5th is free with 4	Same, plus \$500 for a 10x10 booth. Bring your own table and chairs.
How you meet people	You start every conversation. Book meetings with named people before the Expo.	People come to you, including firms you don't know yet. Only 18 booths, first come.
Staffing	Free to move between sessions and meetings	Someone has to be at the booth through the day, so plan on two people
Works best when	The target list is short and named	You want to be found, and to be seen as committed to the reservation

Our read. Concrete Warrior: take a booth if two local people can cover it. The yard is 8 miles away, so the extra cost is mostly the \$500, and with only 18 booths, being one of them is noticed. If only one person can go, attend only and book meetings ahead. VPC: attend only, or have the Concrete Warrior team carry VPC's one-page sheet. Either way, settle the TERO license first; TERO 101 is for licensed companies only.

1. Call the TERO office first (Thu 8 or Fri 9 Oct)

Out of respect for Indian preference, TERO hears from us before anyone else does. Ask:

- Status of CWS's license (type, number, expiry)? CWS is not on any TERO list posted today, and TERO 101 is for licensed firms only. The vendor/supplier license (10-J) is \$2,500; card payments carry a 3% fee.
- How does CWS get on the Approved Oilfield Vendor list?
- Does a booth include registration? Can a company register for the Expo before its license is issued?
- Does VPC need a supplier license? TERO keeps a "Suppliers (Non Native)" list.
- Can TERO introduce us to certified Indian contractors?

Licensing is in person, Mon to Thu, owners present.

2. How tribal work is awarded

Competitive tribal bids are limited to certified Indian contractors. A certified Tier 1 firm within 2% of the low bid wins, at any contract size. (The regulations' 10% figure for projects under \$1M is a test of price against the buyer's own estimate, not a bid margin.)
Routes in for a supplier:

1. **Sell to GCs as a supplier.**
2. **Sign a Mentorship Agreement** with a certified firm (gives that firm Preference Level 2). A firm may hold at most four, and an agreement cannot cover a service the certified firm performs itself. TERO announced audits of these agreements on 17 Feb 2026.

3. Before the expo

Corey makes the calls to tribal and local firms first; engineers get email or LinkedIn. The call list and openers are in a separate working sheet for the team.

4. Send ahead: a one-page sheet for each company

- **CWS:** pit, crusher, batch plant and topsoil on one site at 9702 ND 23; TERO license number (once issued); insurance; ISNetworld; 2027 capacity.
- **VPC:** product lines; American Iron and Steel / Build America, Buy America compliance (SRF-funded jobs require it); ND references.

5. On site

DAY 1 • MON 19 Arrive by 8:30. Attend the regulation update and TERO 101, then visit the TERO licensing desk.	DAY 2 • TUE 20 GCs, Construction Management, FBRW and FBHA.	DAY 3 • WED 21 Catch anyone missed. Book site visits.
---	---	---

6. Seven-day follow-up (by 28 Oct)

Thank-you, the one-page sheet and one dated next step per contact.

Risks

- Preference rules can shut a non-certified firm out of tribal bids.
- Fees: the 2022 TERO Ordinance charges 2.5% on construction contracts of \$1,000 or more. The Ordinance (§601(b)) also charges 2.5% of quarterly reservation payroll to non-construction firms with five or more employees on the Reservation or \$1,000 or more in gross sales there, so a supplier is covered. The 2026 regulations list 0.5% of quarterly payroll for a business based on the reservation, while the Ordinance says 2.5%; confirm which applies.

- Vehicles: TERO's Marking of Vehicles regulation (12 May 2026) requires both sides of company vehicles to show "Owner" and the legal name on the TERO or MHA DOT license; penalty up to \$500, and up to \$500 a day if it continues. TERO says the rule is being revised; ask.
- Watford City and Stanley are off-reservation, so no TERO there.
